

VISUAL GUIDE TO PREPARE YOUR CONTRIBUTION TO #PUBARCHMEDFIN

POSTER EDITION

1 You have received an email of acceptance with the day and time of your contribution.

2 This means you can prepare your poster!

You can use any software you feel comfortable with, as long as the result is clear and visible. Preferably send it in pdf format or a good resolution jpg (should be able to read the text). Still, we can help transform or make available any format.

Size = A1 = 594x841 mm

*Both orientations are okay. The poster does not need to have any logo or frame from our side. Just what you considered necessary. **Absolute free style.***

Only one rule: At least half (1/2; 50%) of the surface has to be images!

3 Submission of the poster before April 15!

Send it to: jaime.almansa-sanchez@incipit.csic.es

4 What happens next?

We will upload it to the web and will be available there. We will also share it around, so people know it is there.

We will have one **specific gathering for the posters on Sunday 18.**
